### **CUSTOMERS /**

- Cultivation Centers
- Product Manufacturers
- Cannabis Dispensaries
- Testing Facilities
- Distributors

# ADULT RECREATIONAL MARIJUANA USE IS NOW LEGAL IN CALIFORNIA ! /

Proposition 64 passed on Nov 8<sup>th</sup>, 2016 and directs the state to treat cannabis like alcohol thus making it legal for individuals to use and grow marijuana for personal (recreational) use on November 9<sup>th</sup>, 2016.

However, sales and taxation of recreational marijuana will not go into effect until January 1<sup>st</sup>, 2018. During 2017, only businesses currently licensed for medical marijuana sales are allowed sales for recreational use. On Jan 1st, 2018, these restrictions will expire and new licenses for recreational cannabis sales will be issued.

---

## PROBLEM /

- Cannabis remains a DEA Schedule-1 controlled substance.
- Divergence between State and Federal marijuana laws means that it remains challenging for banks to handle cannabis related transactions.
- As a result, the legalized cannabis industry in California operates as "cash only" business.
- Therefore, California cannabis businesses operate in an environment of real risks to:

### Assets:

That require secure transport, tracking & storage management.

### Facilities:

That must satisfy strict physical security & monitoring requirements.

### Operations:

That will be regularly audited by multiple regulatory authorities.

## SOLUTION /

- Security solutions for the California cannabis industry is the domain of OSS expertise and is our exclusive focus.
- OSS is uniquely positioned to assess, manage and mitigate risks that threaten the sustainability of cannabis businesses across the industry supply chain.
- OSS solutions and services address the full spectrum of risks that cannabis businesses must manage.
- OSS differentiator is years of law enforcement, transport security and drug interdiction experience.

### Asset Transport & Storage:

Secure asset tracking, transport & storage and transparent accountability.

### Security Services:

Guard services, physical security assessment, upgrades & monitoring.

### Business Services:

Audit-proof assessment, business setup, operating practices, compliance, accountancy and tax preparation.

---

## VALUE PROPOSITION /

OSS delivers "peace of mind" in an otherwise volatile and uncertain operating environment.

---
