# TRMR-LE TACTICAL TRAINING DEVICE

## PRODUCT CODE TRMR-LE

### PRODUCT SPECIFICATIONS /

- Part No: TRMR-LE
- Material: Aluminum/Steel
- Diameter: 1.7 in
- Length: 6.0 in
- Weight: 1.6 lbs
- Cartridge: ALS1208 12ga
- Warranty: 250 Uses

## PRODUCT DESCRIPTION /

The TRMR-LE Training Device is a reloadable training diversionary device body that can be reloaded up to 250 times with the ALS1208 12ga Bore Thunder cartridge. The body incorporates a safety button that must be engaged to twist the top section to arm, which functions similar to a standard firearm safety. Upon deployment, the device's kinetic energy causes the plunger to move, forcing the firing pin into the 12ga primer to function the shell. The base is then removed to expel the spent shell, reloaded with a new shell and reassembled for next use. The ALS1208 produces approximately 172 dB and 1.2 PSI at 5 feet with a flash.

## SHIPPING INFO /

Non-hazardous, commercial packaging

## WARNING /

This round should only be used by individuals properly trained in the use of tactical munitions. Serious injury or death may occur if the product is misused or in rare or unexpected instances.
